Project Update - Proposal Details

Purpose of the Proposed Project (required)

Building on the first phase of the Project "Empowerment of Youth through Improved e-Governance in Turkey", this project aims to strengthen the ICT use capacities of local youth platforms that are established through Turkey's Local Agenda 21 Program (LA-21) and to create employment opportunities for those who have received IT training for the national digital inclusion. A well-trained IT peer educator team will continue to give local and regional peer to peer trainings with a target to reach a group of 50.000 young people all over Turkey within 2008. The project has a special emphasis on participation of young women in digital inclusion.

Goal #1 of Project (required)

Training of socio-economically disadvantaged young people by volunteer peers. The project aims at reaching 50.000 young people within 2008. A special emphasis will be given to the training of young women.

Goal #1 Measurement (required)

Reports of the local trainings including brief information on the trained young people will be provided to the project team. These reports will be analyzed and reflected in the progress reports of the project.

Training of 50.000 young people will enable their access to information as well as it is going to contribute to the e-transformation of Turkey.

Goal #2 of Project (required)

The project aims to provide employment opportunities for 50 young people who are involved in this project.

Goal #2 Measurement (required)

We foresee a partnership with AIESEC to provide the opportunity for 10 of our volunteer trainers to experience an international internship at a similar project, which will highly contribute to their professional carrier.

The reports on the employment of young people will be reflected in the progress reports of the project.

We expect the employment of our volunteer trainers in ICT sector.

Goal #3 of Project (required)

Spread of Digital Literacy Learning in Turkey.

Goal #3 Measurement (required)

The localized material of digital inclusion will enable the project to reach out a higher number of young people and it will be reflected in the local reports as well as progress reports.

Project Update - Responses

PROJECT UPDATE

Please provide a short summary of the project's progress to date. (required)

2 regional ICT Academies are established in partnership with local governments. The curriculum provided at the academy in Istanbul is enriched.

101 new volunteer trainer is trained in 5 regional trainings.

12602 people are trained, 50448 benefited from the project.

Project partners collaborated with 4 new national stakeholders.

Project is presented at the National Youth Employment Summit, Global Partnerships Summit of International Youth Foundation, European Mobile Life Summit and European E-Inclusion Ministerial Conference.

Project is analysed by ODTU University for a report on management strategy of the 8000 Public Internet Access Points, which shall be established in upcoming 5 years.

Project is awarded by European Commission within E-

Inclusion Awards Geographical Inclusion category.

YfH has become a member of the newly established Istanbul Development Agency.

Close cooperation with Minister of Transport has contributed to youth participation in National E-Transformation Policy of Turkey.

Quarterly Progress Status Goal #1 (required)

On Schedule

Progress Toward Goal #1 (required)

2 regional ICT Academies are established in Etimesgut Ankara and Kocaeli in partnership with local governments. The venue of the laboratories, expenses including security, electricity, internet connectivity and technical assistance are covered by local governments.
